

# NSO Planning Primer Doc

## Brainstorm and Planning for your NSO Season

As you've prayed and casted vision, what has God been saying to you about new students? It's okay to take multiple passes if you need to.

How will you prepare spiritually for NSO? How will you lay a foundation of prayer for the incoming new students?

How will you meet people during NSO? What Events will you host? What Proxe stations will you run? Will you have events or tabling? Keep this list for when you decide on actual events and put them in your calendar.

How will you follow up with students? How can you make follow up both a great experience for you, and the new students you befriend? What systems will you need? What key people need to be involved to help this go well?

What skills do your students need to do a great NSO? What are the most important skills to train them in? When will you train them?
